Signature upload guidelines

During the registration process on **www.improve-ov.com** you are required to upload a digital photograph of your signature. These guidelines are intended to assist you in this process.

Step 1
Print a copy of this PDF and then sign your name in either black or dark blue ink within the white panel below. Your signature should fill the panel, as per the example.

Step 2
Photograph your signature **so that the grey border is just outside the edge of the photo and your entire signature is visible within the photo**. A photo from a smartphone is OK. Please ensure there is enough light to clearly display your signature in the final photo. Your signature should be large enough within the photo to be clearly legible.

Step 3
Upload the photo of your signature when registering online at **www.improve-ov.com**
